

CUT THE CORD AND MOVE TO WIRELESS LOCKS WITH BRIVO ACCESS

BENEFITS

Choose the wireless lock that best meets your door type including exterior, interior, gate, store-front, glass doors, cabinets, lockers and server racks.

Seamlessly integrate wireless locks into your Brivo Access platform with easy installation, software compatibility and reduced wiring and labor expenses.

Provide greater security than mechanical locks with real-time door status monitoring and access control via Brivo Access.

Use wireless locks from the top industry brands with your Brivo platform to achieve real-time monitoring, added control and lower installation costs.

WHAT YOU NEED TO KNOW

Don't get 'locked in' with just one lock brand

Have the flexibility to choose the wireless locks that meet your specific door opening and physical security requirements.
